

# IRLP

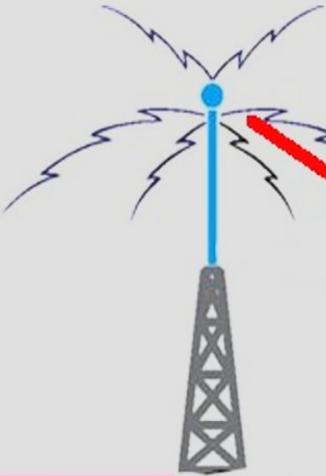

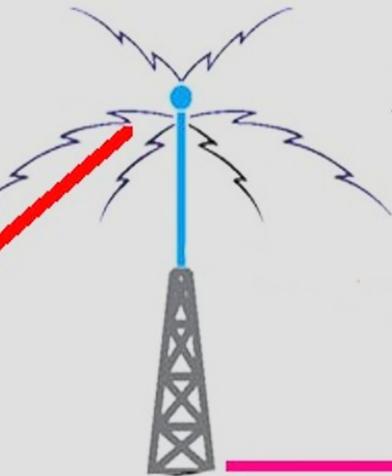

# ***IRLP Radio Linking***

VHF Radio Link

VHF Radio Link

Internet Link between Radio Repeaters

# **CVARC VE7RAP (91 Repeater)**

- 1.) Locate a far distant repeater you would like to access (must support IRLP).**
- 2.) The website “repeaterbook.com” can be used to find world wide IRLP repeaters.**
- 2.) For demonstration we will use VE7RSC repeater in Surrey.**
- 3.) VE7RSC repeater has a IRLP address of “1736” as listed in repeater book.**
- 4.) Send the DTMF tones of “1736” to CVARC VE7RAP (.91 Repeater)**
- 5.) This will activate an internet link to/from VE7RAP (.91 repeater) to VE7RSC repeater.**
- 6.) Have a QSO.**
- 7.) Send DTMF tones of “73” to VE7RAP (.91 repeater) to terminate internet link.**
